

# IMPROVE SOIL

MAKE EXISTING SOIL HEALTHIER

## HELP SOIL STRUCTURE & HOLD MOISTURE

### GO COMPOST

- Provides organic matter
- Builds soils physically & chemically
- Increases water holding
- Eases compaction
- Improves drainage

#### APPLICATION INSTRUCTIONS:

- Apply at the rate of 50-100mm depth.
- Dig into existing soil.
- Water well.

DIG IN & WATER

50-100mm

EXISTING SOIL

## ENRICH SOIL FOR HUNGRY PLANTS

### GO MIX & FEED

- Blend of GO Compost & locally sourced cow manure
  - Alternative to raw manure & mushroom compost
  - High in organic nutrients
- (note: do not plant directly into)

#### APPLICATION INSTRUCTIONS:

- When cultivating apply to soil 50mm depth.
- Dig in and water well.
- Can be used as a dressing for shrubs and trees in spring. Apply to a depth of 50mm, keeping well away from trunks or stems.
- Depth can be 75mm for very poor sandy soils, but additional care should be taken to mix in well.

Note: Can also be sold as a 50/50 blend with Gold Blend as Vegie Mix for direct planting. Do not plant directly into GO Mix & Feed.

## MULCH PLANTS & IMPROVE SOIL

### GO MULCH

- Blend of GO Compost & Hardwood Chip
- Large particles mulch soil
- Finer particles add organic matter

#### APPLICATION INSTRUCTIONS:

- After planting, apply 75 - 100mm depth.
- Water well to move compost down into soil.
- Pull GO Mulch away from woody stems.

KEEP AWAY FROM STEMS

## POINTS TO CONSIDER

Adding organic matter may provide a cost effective and sustainable solution to stripping site soil and replacing with imported mixes. Soilco has developed the Garden Organics (GO) range.

These products are produced in accordance with guidelines set by Standards Australia and contain GO Compost; certified to AS4454 – Composted Soil Conditioners.

Products in the GO Range include:

- GO Compost – Compost only
- GO Mix & Feed – Compost and Manure
- GO Mulch – Compost and Mulch

These products have a high organic matter content and are suitable for soil improvement in a wide range of home, environmental, agricultural and rural applications.

**Whatever you grow  
and wherever you grow it,  
there are many ways  
we can help.**

Soilco is a producer of organic soil improvers.

We create a range of soil, compost and mulch products to regenerate your environment for dynamic growth.
